PDMP Best Practices: Florida's Success

Rebecca Poston, BPharm, MHL
PDMP Program Manager - Florida

Today's Focus: PDMPs

- Ensure access to controlled substances for legitimate medical purposes
- Education and statistics
- Public health initiatives
- Early intervention and prevention
- Investigation and enforcement

What is a Prescription Drug Monitoring Program?

- Collects controlled substance prescription records from dispensers state-wide
- Provides prescription histories and other compiled data to authorized end-users for use in clinical care, law enforcement, professional practice regulation, research and evaluation

Key Legislative Components

- Enrollment conditions
- Query conditions
- Data submission intervals
- Use of delegates
- Proactive analysis of unsolicited reports
- Interstate data sharing
- Data evaluation

PDMP Comparison

- 24 capture patient identification
- 46 capture method of payment
- 50 collect data less than 7 days
- 11 have HIE integration
- 46 allow unsolicited reports/alerts
- 28 have mandatory enrollment
- 32 have mandatory utilization
- 47 allow delegate access
- 37 engage in interstate data sharing

Recommended PDMP Best Practices

- Collect positive identification of patient
- Collect data on method of payment
- Collect data in timely intervals
- Integrate PDMP reports with HIEs/EHRs
- Send unsolicited reports/alerts to appropriate users
- Mandate enrollment and utilization
- Allow delegate access
- Enact and implement interstate data sharing
- Stable funding

Florida Registration and Utilization

Registration and Utilization by License Type (All County as of December, 2016)

License Type	Number of Registrants	Number of Users	Registrants that have queried (%)	Number of Queries	Queries per User
Advanced Registered Nurse Practitioner	2,730	1,961	71.8%	812,712	414
Dentist	974	593	60.9%	23,772	40
Medical Doctor	13,816	9,710	70.3%	10,129,636	1,042
Optometrist	15	4	26.7%	12	3
Osteopathic Physician	2,953	2,270	76.9%	2,379,318	1,002
Pharmacist	17,333	15,700	90.6%	17,699,180	1,127
Physician Assistant	1,877	1,467	78.2%	586,457	400
Pediatric Physician	208	104	59.6%	8,395	68
Grand Total	39,908	31,809	79.8%	31,526,401	990

Registration and Utilization

E-FORCSE Registered Users

Impact on Practitioner Prescribing

Impact on Patient Behavior

79% Decrease in Doctor Shopping

Florida's Successes

- Increased dispenser reporting
- Increased prescriber enrollment and utilization
- Reduced morphine milligram equivalent dosing prescribed
- Reduced the number of individuals having multiple provider episodes
