Mobile	45	14.7	2017	13.6
Total (does not include unknown)	307	100.0	14795	100.0

***Note: Statistics should be interpreted WITH CAUTION as not all reported cases have been entered into the HIV Surveillance database. Effective October 1, 2017, Public Health Areas have been redistributed as eight Public Health Districts. Unknown cases are only accounted for in state total.**
 Newly diagnosed HIV includes newly diagnosed HIV infections during the year of interest.
 Prevalent HIV includes all persons living with HIV as of September 30, 2020. Cumulative HIV includes all diagnosed HIV (living and deceased) as of September 30, 2020.
 Totals include unknown case counts. Females with no risk factor reported are reclassified as heterosexual exposure.
 Age among newly diagnosed and cumulative cases is age at diagnosis. Prevalent age is current age among cases living as of September 30, 2020.
 Public Health District represents residence at diagnosis among newly diagnosed and cumulative cases and current residence among prevalent cases.
