

Hearing File Upload Reminders

- Upload files as often as you screen a baby
- Make sure submitter ID is correct for your hospital
- Ensure that MRN entered into screener matches EXACTLY with filter paper
- Make sure babies first and last names are entered correctly and in the appropriate boxes
- Make sure DOB entered into screener matches DOB entered on filter paper
- If Mothers First and Last are given, please enter those into screener
- Make sure a secure USB is used when exporting file from Algo 5 screener
- Make sure that the latest version of CORE FTP is re-downloaded after hospital IT does any upgrades on computers
- If you have any questions regarding whether your file was sent through Core FTP don't hesitate to call

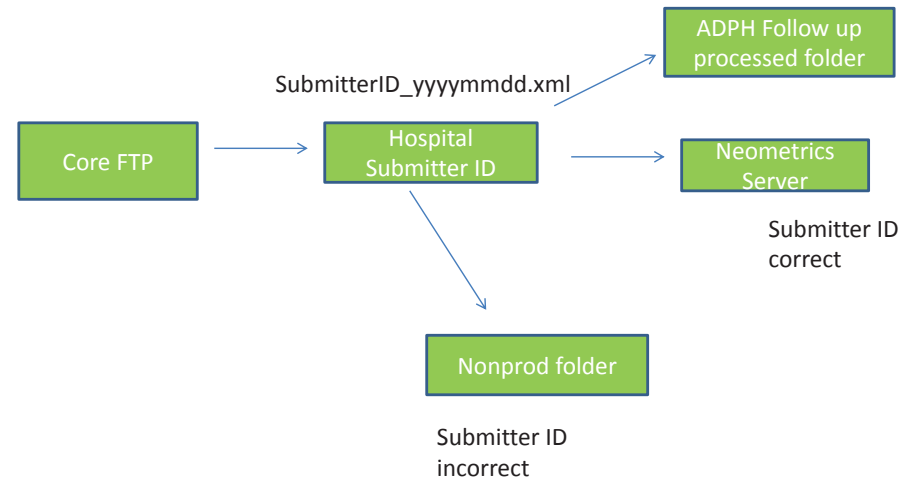

Hospitals with less than 700 Births/year

Hospitals with greater than 700 births/year
