PLEASE READ CAREFULLY

**Change of Ownership License Application
To Operate a Hospital**

Regulations affecting the application for licensure of Hospitals can be found by clicking the Rules tab or link on the applications page.

The following information should be submitted in support of an application for a change of ownership at least 30 days prior to the effective date of the change.

1. A completed Change of Ownership license application and \$240 application fee, plus \$6 for each bed, excluding the first 10 beds. Application fees will not be refunded. Checks or money orders must be made payable to the Alabama Department of Public Health.
2. A copy of the Articles of Incorporation, Articles of Organization, LLC Agreement, Partnership Agreement or Statement of Sole Proprietorship under which the Hospital will operate post transaction. Corporations, Limited Partnerships and Limited Liability Companies filing an application for a change of ownership must provide a copy of their Certificate of Existence (for domestic entities) or Certificate of Registration (for foreign entities) from the Alabama Secretary of State as proof of authority to transact business in the state of Alabama.
3. A draft copy of the agreement effecting the change of ownership, such as an asset purchase, lease, or management agreement. An unsigned copy of the agreement or a final draft is acceptable for submittal with this application; however, a copy of the fully executed agreement **must** be submitted prior to the issuance of a license certificate.
4. A facility diagram illustrating the licensed and certified beds and room numbers. Please provide floor plans on letter sized paper, if possible.
5. Approval for the change of ownership from the Alabama State Health Planning and Development Agency (SHPDA), if required.

A copy of the application will be forwarded to the Division of Healthcare Facilities Medicare Other Unit following initial review by the Licensure Unit. A staff member from the Medicare Other Unit will contact the applicant if an onsite licensure survey is required before the license can be granted.

NOTE Due to workload volume, application review takes a minimum of 30 days. An onsite survey (if required) could add considerable time to completion of the review process.

Applications must therefore be submitted well in advance of the date of the anticipated change of ownership and with all required documentation, as noted in the instructions, before the review can begin.

The earliest date a license can be granted is the first day the complete application and any required surveys have been approved by the Department. [For certified health care facilities and agencies, application to the appropriate Medicare Administrative Contractor (MAC) is recommended 180 days in advance of the anticipated date of the change of ownership.]

FOR STATE LICENSURE PURPOSES, A CHANGE OF OWNERSHIP IS NOT EFFECTIVE UNTIL A NEW LICENSE CERTIFICATE REFLECTING THE CHANGE HAS BEEN ISSUED.

Printing of License Certificates

License certificates are now available online. When a license is granted or renewed, the license certificate can be printed on-line at <https://dph1.adph.state.al.us/FacilityCertificatePrint>. A facility ID and pin number will be provided and must be used to print license certificates.

Please note: It is a violation of state law to operate as a Hospital before you are granted a license from the Alabama Department of Public Health. If you have questions regarding the application, please call (334) 206-5175.

APPLICATION INSTRUCTIONS Hospital

Changes in the ownership of a licensed Hospital are reviewed on a case-by-case basis by the Alabama Department of Public Health. A license application for a change of ownership in a Hospital may be required in the circumstances described below (see also 42 C.F.R. § 489.18 and State Operations Manual Section 3210.1D); however, changes of ownership may not be limited to these situations. Please consult the Licensure Division for a determination as to whether a Change of Ownership License Application is required if the applicable transaction is not described.

Unincorporated Sole Proprietorship. If a provider entity is owned by a single individual, approval for a change of ownership is required when transferring title of that provider entity to another person or firm, regardless of whether the transaction includes transfer of title to the real estate. Approval for a change of ownership is also required if the former owner becomes one of the members of a partnership or corporation succeeding him/her as the new owner.

Partnership. The removal, addition, or substitution of an individual as a partner in the provider entity dissolves the old partnership, creates a new partnership, and constitutes a change of ownership, unless expressly provided otherwise in the transaction. Questions regarding the applicability of this requirement under Alabama law will be submitted to the CMS Regional Office for final determination.

Corporation. A change in the members of the governing body of the provider entity's owner corporation, regardless of whether ownership of the corporation stock is transferred, would not constitute a change of ownership as long as the same corporation continues to be the legal entity responsible for operation of the provider entity.

- A merger of one or more corporations into the provider corporation, with the Medicare-participating provider corporation surviving, does not constitute a change of ownership.
- If the corporation that survives the merger is not the former owner of the provider corporation, a change of ownership has occurred.
- Consolidation or merger of two or more corporations that results in the creation of a new corporate entity having ownership control over a provider constitutes a change of ownership.
- Transfer of corporate stock does not constitute a change of ownership.

Leasing. The lease of all or part of a provider facility constitutes a change of ownership of the leased portion. If only part of the provider facility is leased, the original provider agreement remains in effect only with respect to the unleased portion. The Department does a survey and prepares a certification covering the leased portion as a new provider. Documents must be provided to the Department that indicate which individual or entity has first level authority over, and responsibility for, the provider located within the leased premises.

Management Firm. A firm that contracts with the owners to manage a provider entity, subject to the owners' general approval of operating decisions, is an agent of the owners rather than a partner or successor. If management in that sense is turned over to a management firm, this would not constitute a change of ownership, even though the management firm may appear to

have wide latitude in making decisions, and even though its fee may be based on the net revenue or profit the provider entity receives from furnishing services.

The only time an operation under a management agreement would constitute a change of ownership is when the owner has relinquished all authority and responsibility for the provider entity. Questionable cases will be submitted to the CMS Regional Office for a final determination.

Franchise. If a provider entity states it is a franchisee of another entity which is the owner of the provider, a determination must be reached concerning which entity is the provider that CMS will hold legally responsible for complying with all applicable law and regulations before the change of ownership can be processed.

Item 1: Applicant. The applicant should be the legal name of the individual, partnership, corporation or other entity who will become the governing authority of the Hospital upon the change of ownership and in whose name the license will be issued. The applicant's name as stated on the application must be identical to the name reflected on the corporate documents submitted with the application. If the Hospital is operated by another entity pursuant to a lease agreement, the lessee should be listed as the applicant, and a copy of the lease agreement must be submitted with the application.

NOTE - The applicant must be the operator of the Hospital, the entity that makes employment decisions concerning the Hospital's administrator, determines patient care issues, makes payment for the Hospital's financial obligations, etc.

The Department does not recognize fictitious business names (d/b/a's) as such or require their disclosure. Businesses are not required to register a d/b/a or trade name with the Alabama Secretary of State. If a d/b/a is included as part of the applicant's legal name in Item 1, the d/b/a will be reflected on the license. If the d/b/a will be utilized as the facility name, it should be entered in Item 7.

Item 5: Facility Administrator. A copy of the current license for the applicant's administrator must be attached.

Item 6: Bed Capacity and Authorized Bed Capacity. Bed capacity is the number of beds to be licensed in the Hospital. This number cannot exceed the number of beds listed on the Certificate of Need. Authorized bed capacity is the number of beds a Hospital has available for inpatient care. The number of authorized beds is designated by the Hospital Administrator. The number of authorized beds may be less than, but not more than, the licensed bed capacity.

Item 7: Facility Name. The information provided on this line will be entered in the Department's Provider Services Directory, and the Hospital will be referred to by this name. This same name should be reflected on all of the Hospital's advertisements, letterhead, signage and certification information. The name must be unique to the Hospital - that is, it may not be the same as the name of any other licensed facility in Alabama, nor may it be so similar to the name of any other licensed facility that, in the judgment of Department staff, it could create any confusion in the mind of the public.

Governing authorities operating more than one facility may give the facilities they operate similar, but not identical, names. The facility name may be abbreviated if the abbreviation is also used on all advertisements, letterhead, signage and certification information.

Item 9: Facility's Mailing Address. The Hospital's mailing address or post office box must be within the same postal service area as its street address.

Item 17: Hospital Classification. Any specialty listed in this section must be consistent with the specialty listed on the Certificate of Need.

Item 20: Administrator's Signature. The administrator designated in Item 5 to run the Hospital on behalf of the applicant must sign the application and make the attestation in this section.

Item 21: Attestation of Responsible Person. A company officer, board member, administrator or other responsible person of the applicant must sign the application and make the attestation in this section.

Item 22: Current Licensee's Signature. A company officer, board member, administrator or other responsible person of the current licensee must sign the application and make the attestation in this section.

Application Fee. The application fee for a Hospital is \$240, plus \$6 for each bed, excluding the first 10 beds. Application fees are not refundable. Checks or money orders must be made payable to the Alabama Department of Public Health and submitted with the application.

Attachments. Each attachment to the application must be specifically referenced within the application and labeled accordingly. For example, an attachment to Item 14(d) should be referenced in the application and labeled as such.
