

# A PERSONALIZED APPROACH TO PEDIATRIC ASTHMA MANAGEMENT

Satellite Conference and Live Webcast

Thursday, May 11, 2017, 12:00-1:00 p.m. (Central Time)

1:00-2:00 p.m. (Eastern) • 11:00 a.m.-12:00 p.m. (Mountain) • 10:00-11:00 a.m. (Pacific)

Asthma is the most common childhood disease, accounting for more days lost from school for children, and days lost from work for parents than any other diagnosis. Much is known about how to manage pediatric asthma so that children can achieve good control of symptoms and lead active, health lives. However, in some situations, a standardized approach may not be successful, and more effort is needed to achieve partnership between families and providers. Opening a dialogue regarding individual circumstances can result in an individualized plan to help achieve optimal control of asthma symptoms. This program will review basic asthma management, as well as factors to consider when a standardized approach is not successful, and review several examples of how to partner with families in designing an individualized plan for success.

## PROGRAM OBJECTIVES:

1. Review basics of pediatric asthma management.
2. Review barriers that may prevent successful management of pediatric asthma using a standard approach.
3. Review factors to consider when modifying a pediatric asthma management plan, with an emphasis on family-professional partnership.
4. Provide three examples of individualized asthma management plans using case-based examples.

## CONFERENCE DETAILS:

Target Audience: Nurses, social workers, health educators, pediatricians, school counselors, school nurses, respiratory therapy staff, and other healthcare professionals and administrators who may provide services to children

Continuing Education: Nurses 1 hour and social workers 1 hour

Registration: [www.adph.org/alphtn](http://www.adph.org/alphtn)

Technical Information: To receive complete technical information you must register at [www.adph.org/alphtn](http://www.adph.org/alphtn)

Satellite - Live satellite conference on C band (analog).

Webcast - Watch with RealPlayer or Windows Media Player. Test your computer with the "test connection link" at [www.adph.org/alphtn](http://www.adph.org/alphtn)

Audio - To listen by phone, call 1-888-557-8511. Enter access code 972-1530 #.

Press # again to listen to the conference.

On Demand - Available 2-3 business days after the live broadcast from the On Demand page of our website.

Conference Materials: Posted on our website approximately one week before the program for registered participants.
