

DEFENDING THE ADOLESCENT BRAIN

SATELLITE CONFERENCE AND WEBCAST

Thursday, June 11, 2009 1:00-2:30 p.m. (Central Time)
2:00-3:30 p.m. (Eastern) • 12:00-1:30 p.m. (Mountain) • 11:00 a.m.-12:30 p.m. (Pacific)

For youth practitioners and health professionals, there is no hotter topic than the adolescent brain. While research offers us insights that can guide and improve our practice, it also raises concerns. Will it be used to justify policy that can have harmful implications for young people? Are the rights adolescents currently have more at risk?

In this participatory workshop we'll discuss these concerns and generate talking points intended to further debate and re-frame the discussion.

CONFERENCE DETAILS:

Target Audience: All members of the youth-serving community, health risk specialists (teen pregnancy prevention, alcohol, tobacco, violence, etc.), youth development and after school programming practitioners, advocates, educators, volunteers, researchers, medical practitioners, parents, policy makers, civic leaders, public health/education/social services professionals.

Registration: www.adph.org/alphntn

Cost: There is no cost to view.

Continuing Education: Nurses and Social Workers applied for.
