

# STD UPDATE 2012

Satellite Conference and Live Webcast

Wednesday, July 25, 2012, 10:00 a.m.-12:00 p.m. (Central Time)

11:00 a.m.-1:00 p.m. (Eastern) ● 9:00-11:00 a.m. (Mountain) ● 8:00-10:00 a.m. (Pacific)

Sexually transmitted diseases (STDs) continue to pose a risk to the overall health of Alabama citizens. In 2009, the state ranked in the top 5 for numbers of reported STD cases in the United States. Left untreated, STDs can lead to serious complications like low birth weight, infertility, and organ damage. In this program, faculty will focus specifically on Trichomoniasis, Bacterial Vaginosis, Chlamydia, and Gonorrhea, their diagnoses, treatments, and trends in research.

## PROGRAM OBJECTIVES

1. Outline the methods of diagnosis for Trichomoniasis.
2. Describe the appropriate treatment and follow-up for Trichomoniasis.
3. Define the management of Bacterial Vaginosis and its recurrence.
4. Discuss current epidemiology, diagnostic approaches, and treatment strategies for Chlamydia and Gonorrhea.
