Objectives:

- The nurse will be able to provide contraceptive care to patients in Alabama Department of Public Health Family Planning Clinics that conforms to evidenced based national care standards found in the Medical Eligibility Criteria for Contraceptive Use (USMEC);
- The nurse will be able to demonstrate the use of an expedited patient self history form and the understanding of its purpose so that the patient will receive holistic care; and
- The nurse will be able to define the steps of Pap Smear follow-up and its documentation along with other follow-up practices to ensure continuity of care for the patient.
