*The Alabama Department of Public Health is an approved provider of continuing education by the Alabama State Nurses*

*Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. (Expires on January 28, 2011.)*

SCHOOL-BASED  
**DIABETES**  
AWARENESS INITIATIVE

Adolescent<sup>AND</sup>  
**SCHOOL HEALTH**

The prevalence of overweight children has more than doubled in the last 20 years. As a result, the Centers for Disease Control and Prevention estimates that one in three American children born in the year 2000 will develop diabetes in their lifetimes. This epidemic will require school nurses to be prepared to treat students when complications arise. The Alabama School Based Diabetes Awareness Initiative invites all nurses to take part in this continuing series focusing on serving children and youth with diabetes.

## FACULTY

**Joye Taylor, MS, RD, CDE, CPT**

Pediatric Endocrinology

University of Alabama at Birmingham

Children's Hospital

Birmingham, Alabama

## PROGRAM OBJECTIVES

1. Provide an overview of medical nutrition therapy for type 1 and type 2 diabetes.
2. Discuss sources and health issues associated with macronutrients.
3. Develop strategies to assist students with adherence to therapy.
4. Explore the basic and advanced concepts of carbohydrate counting.
