

# HISTORICALLY BLACK COLLEGES AND UNIVERSITIES HIV TESTING UPDATE:

## “KNOW. MANAGE. LIVE.”

### Satellite Conference and Live Webcast

Thursday, August 23, 2012, 10:30 a.m.-12:00 p.m. (Central Time)

11:30 a.m.-1:00 p.m. (Eastern) ■ 9:30-11:00 a.m. (Mountain) ■ 8:30-10:00 a.m. (Pacific)

*In September of 2010, the Alabama Department of Public Health's HIV/AIDS Division of Prevention and Control was awarded a grant to expand HIV testing. The goal of this initiative is to provide accessible HIV testing in locations people frequently visit or work. An individual's knowledge of their HIV status could increase treatment and prevention measures, subsequently reducing infection rates and increasing positive health outcomes. Program faculty will provide an Alabama program update, provide best testing practices, report on cases of false negative results, and offer a rapid test demonstration.*

### PROGRAM OBJECTIVES

1. Understand the purpose of the historically black colleges and universities (HBCU) HIV expanded testing initiative.
2. Implement best practices for HIV rapid testing on college campuses.
3. Understand the complexities of false HIV negative test results.
4. View a rapid test demonstration.
5. Receive tips on creating optimal testing spaces in less than optimal locations.
