Rachael Montgomery
Director, Newborn Screening Program

Alabama Department of Public Health

Objectives:

- Describe the modes of Zika virus transmission, prevalence and prevention of Zika virus disease.
- Discuss the latest Centers for Disease Control and Prevention (CDC) recommendations for Zika testing and the process for requesting testing.
- Discuss diagnostic testing and evaluation of infants with possible congenital Zika syndrome.
- Describe the specific brain abnormalities and other adverse outcomes potentially linked to the Zika virus infection in the infant.
- Define best practices in newborn screening for infants with possible Zika virus exposure.
- Explain the follow-up and referral process for infants with congenital Zika syndrome or other birth defects.
- Discuss the birth defect reporting procedure and purpose of the U.S. Zika Pregnancy and Birth Defects Registeries.
