

"You are the Key to HPV Cancer Prevention"

Satellite Conference and Live Webcast

Wednesday, August 31, 2016 12:00-1:30p.m (Central Time)

1:00-2:30 p.m. (Eastern) • 11:00 a.m. –12:30 p.m. (Mountain) • 10:00—11:30 a.m. (Pacific)

12:00 – 1:00 pm CST: *You are the Key to HPV Cancer Prevention (CME/CE)*

1:00 – 1:30 pm CST: *Alabama (ImmPrint) & Mississippi Registry Systems, Q&A (non-CME)*

Low Human Papillomavirus (HPV) vaccination rates are leaving another generation of boys and girls vulnerable to devastating HPV cancers. Vaccination could prevent most of these cancers. This presentation provides up-to-date information on HPV infection/disease, HPV vaccine, and ways to successfully communicate with patients and their parents about HPV vaccination. Find out how to reduce missed opportunities by recommending HPV vaccine the same way and same day you recommend other routinely recommended adolescent vaccines.

PROGRAM OBJECTIVES

After completing this activity, the participant should be better able to:

1. Describe the burden of HPV disease.
2. Define the importance of HPV vaccination for cancer prevention.
3. Explain the rationale for vaccinating youth at ages 11 or 12.
4. List the recommendations for HPV vaccine for girls and for boys.
5. Provide useful and compelling information about HPV vaccine to parents to aid in making the decision to vaccinate.
6. Locate resources relevant to current immunization practice.
7. Provide appropriate care and counsel for patients and their families.
8. Provide accurate and appropriate counsel as part of the treatment team.

GUEST SPEAKER

Natasha Horne, CRNP
Chu Clinic, Linden, AL
