

# Community Management of Low Dose Radiological Events Satellite Conference and Live Webcast

Tuesday, July 13, 2010 • 12:00-1:30 p.m. (Central Time)

1:00-2:30 p.m. (Eastern) • 11:00 a.m.-12:30 p.m. (Mountain) • 10:00-11:30 a.m. (Pacific)

The potential use of a Radiation Dispersal Device (RDD) remains one of the most likely weapons of mass destruction American citizens are likely to experience. Their emerging implications make it necessary for communities, regions, and states to know how to react effectively to the challenges of low dose radiation exposure. Program faculty will address some of the principle challenges in doctrine, operational models, personnel, training and community preparedness which will become critical elements in public health planning in the 21st Century.

## PROGRAM OBJECTIVES

1. Prepare community leaders to identify vulnerabilities and select suitable tools and strategies for effective consequence management in the presence of a low dose radiation event.
2. Enable community public health personnel to examine the roles and skill levels for community workers/teams which effective intervention in a low dose event would require.
3. Address the risk communications needs and actions necessary to facilitate a smooth transition of community members to the consequence management activities on which their welfare and survival depend.

## FACULTY

**Joseph Contiguglia, MD, MPH & TM, MBA**

Clinical Professor of Public Health

Tulane University School of Public Health and Tropical Medicine

New Orleans, Louisiana

## CONFERENCE DETAILS

**Target Audience:** Physicians, nurses, social workers, administrators, emergency medical response providers, health care providers, disaster management personnel, community leaders, and government officials.

**Registration:** [www.adph.org/alphntn](http://www.adph.org/alphntn)

**Cost:** There is no cost to view.

**Continuing Education:** None for this program.

**Technical Information:** To receive complete technical information you must register at [www.adph.org/alphntn](http://www.adph.org/alphntn)

**Satellite** - Live satellite conference on C band (analog).

**Webcast** - Live webcast with RealPlayer or Windows Media Player. Be sure to test your computer with the "test connection link" at [www.adph.org/alphntn](http://www.adph.org/alphntn).

**Audio** - To listen by phone, call 1-888-557-8511. Enter access code 972-1530 #. Press # again to listen to the conference.

**On Demand** - Available 2-3 business days after the live broadcast from the On Demand page of our website.

**Conference Materials:** Posted on our website approximately one week before the program for registered participants.

**Conference Details Questions:** Call: 334-206-5618 | Email: [alphntn@adph.state.al.us](mailto:alphntn@adph.state.al.us)

## PROGRAM FORMAT

You are invited to join an in-depth question and answer session hosted by faculty from the South Central Center for Public Health Preparedness. The content of the discussion will be determined by you. Your questions will be answered live as they are received throughout the broadcast.

You can email your questions in advance to: [alphntnquestions@adph.state.al.us](mailto:alphntnquestions@adph.state.al.us).
