EMERGENCY PREPAREDNESS FOR PETS

GET AN EMERGENCY SUPPLY KIT

Just as you do with your family's emergency supply kit, think first about the basics for survival, particularly food and water. Consider making two kits. In one, put everything your pets will need to stay at home. The other should be a lightweight, smaller version you can take with you if you and your pets have to get away. Plus, be sure to review your kits regularly to ensure that their contents, especially foods and medicines, are fresh.

ARRANGE A SAFE HAVEN

- Contact your veterinarian for a list of preferred boarding kennels available in event of an emergency.
- Check with local animal shelters to see if they provide temporary emergency shelter.
- Choose a designated caregiver outside of your immediate area to take care of your pet.

EVACUATION PREPARATION

- Store emergency kit as close to an exit as possible.
- Make sure all pets are wearing collars with current identification.
- Always bring pets indoors at the first warnings of a storm.
- Consider your evacuation route and call ahead to make arrangements for boarding your pet outside of the disaster area.
