- 100 of the questions count toward a passing score. 25 questions are new questions that are being field-tested. These 25 questions do not count toward/against your score. The 25 questions (those undergoing field-testing) are scattered throughout the test.
WHAT DO I DO ON EXAM DAY?

- Arrive by the designated time in order to register.
- If you arrive after the exam begins, this may mean that you can not take the exam that day.
- Bring with you: 1. Photo ID (e.g. driver's license)
  2. #2 pencil or mechanical pencil
  3. calculator. NOT PERMITTED: those with pre-programmed data or formulas, including exposure calculators. Smart phones with built-in calculators are not permitted.
- Exam begins after registration is completed.

WHO HAS TO BE CERTIFIED? WHO GETS A CERTIFICATION ID CARD?

- Certification is required in the state of Alabama if you are working in industrial radiography using radioactive materials and/or x-ray machines. Exceptions to certification are listed in 420-3-26-.04(4).
- A certification ID card is issued to an applicant who has:
  1. passed the industrial radiography exam AND
  2. completed and documented an Agency-accepted 40-hour radiation safety course AND
  3. completed and documented on-the-job training (OJT)

Please note that the Agency must have documentation all 3 of these items before your certification ID card will be issued!
