

2022 HAI Annual Data Report

December 14, 2023

The final 2022 HAI report will be posted at a later date. The data on the following pages has been approved by all acute and critical access facilities.

Alabama Hospitals 2022 CAUTI Report for Review

Includes data from medical wards, surgical wards, medical/surgical wards, and adult and pediatric critical care units. Facilities without these units report data from mixed age/mixed acuity wards.

Type	Region	Hospital Name	Volume of Hospital	Number of CAUTIs	Number of Catheter Days	Ratio of Observed to Expected Infections (SIR)	Hospital Performance Compared to National Performance
CAUTI	State	State of Alabama	N/A	343	432,911	0.645	Better*
CAUTI	Southeast	Andalusia Health	Medium	0	1642	N/A	-
CAUTI	North	Athens Limestone Hospital	Medium	3	4108	1.374	Similar
CAUTI	Southwest	Atmore Community Hospital	Medium	1	908	N/A	-
CAUTI	Central	Baptist Medical Center East	Medium	8	7519	1.025	Similar
CAUTI	Central	Baptist Medical Center South	High	49	17020	1.47	Worse
CAUTI	West	Bibb Medical Center	Medium	0	688	N/A	-
CAUTI	Birmingham	Brookwood Medical Center	Medium	3	7552	0.409	Similar
CAUTI	Birmingham	Children's Health System	Medium	3	1221	1.567	Similar
CAUTI	Southwest	Choctaw General Hospital	Low	0	70	N/A	-
CAUTI	Northeast	Citizens Baptist Medical Center	Medium	0	592	N/A	-
CAUTI	Northeast	Clay County Hospital	Low	0	378	N/A	-
CAUTI	Central	Community Hospital	Medium	0	466	N/A	-
CAUTI	Northeast	Coosa Valley Medical Center	Medium	0	2543	0	Similar
CAUTI	Central	Crenshaw Community Hospital	Low	0	350	N/A	-
CAUTI	North	Crestwood Medical Center	Medium	0	2649	0	Similar
CAUTI	North	Cullman Regional Medical Center	High	7	9656	1.032	Similar
CAUTI	Southwest	D.W. McMillan Memorial Hospital	Medium	2	1235	N/A	-
CAUTI	Southeast	Dale Medical Center	Medium	1	1112	N/A	-
CAUTI	West	DCH Regional Medical Center	High	10	16756	0.438	Better
CAUTI	North	Decatur Morgan Hospital - Decatur Campus	High	1	9158	0.126	Better

Includes data from medical wards, surgical wards, medical/surgical wards, and adult and pediatric critical care units. Facilities without these units report data from mixed age/mixed acuity wards.

Type	Region	Hospital Name	Volume of Hospital	Number of CAUTIs	Number of Catheter Days	Ratio of Observed to Expected Infections (SIR)	Hospital Performance Compared to National Performance
CAUTI	North	Decatur Morgan Hospital - Parkway Campus	Medium	0	446	N/A	-
CAUTI	Northeast	DeKalb Regional Medical Center	Medium	0	2769	0	Similar
CAUTI	Central	EAMC-Lanier	Low	0	363	N/A	-
CAUTI	Central	East Alabama Medical Center	Medium	7	7693	0.732	Similar
CAUTI	Central	Elmore Community Hospital	Medium	0	448	N/A	-
CAUTI	Southwest	Evergreen Medical Center	Low	0	305	N/A	-
CAUTI	West	Fayette Medical Center	Low	0	308	N/A	-
CAUTI	Southeast	Flowers Hospital	High	2	10835	0.166	Better
CAUTI	Northeast	Floyd Cherokee Medical Center	Low	0	102	N/A	-
CAUTI	Northeast	Gadsden Regional Medical Center	High	8	11626	0.852	Similar
CAUTI	Birmingham	Grandview Medical Center	High	24	18609	0.774	Similar
CAUTI	Southwest	Grove Hill Memorial Hospital	Low	0	268	N/A	-
CAUTI	West	Hale County Hospital	Low	0	58	N/A	-
CAUTI	North	Helen Keller Hospital	Medium	1	7437	0.166	Better
CAUTI	North	Highlands Medical Center	Medium	4	2652	2.762	Similar
CAUTI	North	Huntsville Hospital	High	32	31650	0.629	Better
CAUTI	Central	Jack Hughston Memorial Hospital	Medium	0	628	N/A	-
CAUTI	Central	Jackson Hospital & Clinic	High	21	12394	1.966	Worse
CAUTI	Southwest	Jackson Medical Center	Low	0	148	N/A	-
CAUTI	Southwest	John Paul Jones Hospital	Low	0	28	N/A	-
CAUTI	Central	Lake Martin Community Hospital	Low	0	382	N/A	-
CAUTI	North	Lakeland Community Hospital	Low	0	401	N/A	-

Includes data from medical wards, surgical wards, medical/surgical wards, and adult and pediatric critical care units. Facilities without these units report data from mixed age/mixed acuity wards.

Type	Region	Hospital Name	Volume of Hospital	Number of CAUTIs	Number of Catheter Days	Ratio of Observed to Expected Infections (SIR)	Hospital Performance Compared to National Performance
CAUTI	North	Lawrence Medical Center	Low	0	314	N/A	-

CAUTI	Southeast	Southeast Health	High	3	9317	0.191	Better
CAUTI	Southwest	Springhill Medical Center	Medium	1	4041	0.283	Similar
CAUTI	Birmingham	Ascension St. Vincent's Birmingham	High	8	16457	0.38	Better
CAUTI	Birmingham	Ascension St. Vincent's Blount	Medium	1	683	0.599	Similar
CAUTI	Central	Ascension St. Vincent's Chilton	Low	0	267	N/A	-
CAUTI	Birmingham	Ascension St. Vincent's East	High	12	12362	0.756	Similar
CAUTI	Birmingham	Ascension St. Vincent's St. Clair	Medium	0	1828	0	Similar
CAUTI	Northeast	Stringfellow Memorial Hospital	Medium	1	1808	N/A	-
CAUTI	Northeast	Tanner Health System	Low	0	252	N/A	-
CAUTI	Southwest	Thomas Hospital	High	11	8490	1.481	Similar
CAUTI	Southwest	Thomasville Regional Medical Center	Low	0	179	N/A	-
CAUTI	Southeast	Troy Regional Medical Center	Medium	0	978	N/A	-
CAUTI	Birmingham	UAB Highlands	Medium	8	4581	1.729	Similar
CAUTI	Birmingham	UAB Hospital	High	52	44686	0.596	Better
CAUTI	Southwest	USA Children's & Women's Hospital	Medium	0	460	N/A	-
CAUTI	Southwest	USA Medical Center	High	11	11433	0.476	Better
CAUTI	Central	Vaughan Regional Medical Center	Medium	0	3252	0	Similar
CAUTI	Birmingham	Walker Baptist Medical Center	Medium	0	5072	0	Better

Includes data from medical wards, surgical wards, medical/surgical wards, and adult and pediatric critical care units. Facilities without these units report data from mixed age/mixed acuity wards.

Type	Region	Hospital Name	Volume of Hospital	Number of CAUTIs	Number of Catheter Days	Ratio of Observed to Expected Infections (SIR)	Hospital Performance Compared to National Performance
CAUTI	Southwest	Washington County Hospital	Low	0	244	N/A	-
CAUTI	West	Whitfield Regional Hospital	Medium	4	1644	N/A	-
CAUTI	Southeast	Wiregrass Medical Center	Low	1	416	N/A	-

Volume of Hospital

Low: Fewer than 446 Catheter Days

Medium: 446 - 7,693 Catheter Days

High: Greater than 7,693 Catheter Days

Hospital Performance Compared to National Performance (Based on 95% Confidence Interval)

Better: Facility had significantly fewer infections than predicted based on 2015 national baseline data

Similar: Facility did not have significantly more or less infections than predicted based on 2015 national baseline data

Worse: Facility had significantly more infections than predicted based on 2015 national baseline data

An SIR of "N/A" and national performance comparison of "-" indicates that a facility did not have enough predicted infections to draw meaningful comparisons

***State Performance Comparison does not include critical access hospitals or hospitals reporting mixed age/mixed acuity wards.**

Volume of Hospital

Low: Fewer than 15 Total Hysterectomies

Medium: 15 - 170 Total Hysterectomies

High: Greater than 170 Total Hysterectomies

Age Group

Adult: at least 18 years old

Pediatric: less than 18 years old

Hysterectomies include inpatient abdominal hysterectomies only. SSI counts only include deep- and organ-level SSIs.

Type	Region	Hospital Name	Volume of Hospital	Age Group	Number of Hysterectomy SSIs	Number of Hysterectomies	Ratio of Observed to Expected Infections (SIR)	Hospital Performance Compared to National Performance
------	--------	---------------	--------------------	-----------	-----------------------------	--------------------------	--	---

Hospital Performance Compared to National Performance (Based on 95% Confidence Interval of SIR)

Better: Facility had significantly fewer infections than predicted based on 2015 national baseline data

Similar: Facility did not have significantly more or less infections than predicted based on 2015 national baseline data

Worse: Facility had significantly more infections than predicted based on 2015 national baseline data

An SIR of "N/A" and national performance comparison of "-" indicates that a facility did not have enough predicted infections to draw meaningful comparisons
