ImmPrint Glossary

Term	Definition
AAFP	American Academy of Family Physicians
AAP	American Academy of Pediatricians
ACIP	Advisory Committee on Immunization Practices
Active	the status of a user, clinic, or patient indicative of frequent/periodic use, modification, or activity, users must log in at least every sixty days to remain active
Add Historical Vaccine	adds vaccine to the patient
Add Test	allows titer tests for vaccine preventable diseases, date serves as hyperlink to the details screen, can only access the details of test the clinic performed, test given by other clinics will appear as "outside clinic"
Address	limited to 120 character alphanumeric field, each site has its own address field for privacy, users can only see the address for the site they are logged in under
Address updated	date the site address was updated
Administer	to facilitate or disperse
Administer Vaccine	takes user to Give Vaccine Details confirmation screen where the user selects the administration site and confirms all of the information

ADPH	acronym that stands for Alabama Department of Public Health, the state agency tasked with Public Health needs statewide
Adverse reactions	drop list of standard reaction, when a reaction does occur, that vaccine will no longer be recommended under the Recommended Vaccines screen
AFIX	Assessment, Feedback, Incentives, eXchange
AIRA	American Immunization Registry Association (AIRA) formed to foster
Birth Last Name	the patient's last name as entered on their birth certificate
Birth Plurality	displays the number of births at a given delivery date
Brand Name	name/identifier assigned to a product by the product's manufacturer, information is related to the lot number of the vaccine, drop list of Brand Names to choose from, once the lot number of the vaccine is selected, the Brand Name is updated
Cancel	does not save any changes and returns the user to the previous screen
CDC	acronym standing for Centers for Disease Control
CDC Immunization Schedule	recommended vaccine screen the algorithm is based on Advisory Committee on Immunization Practices (ACIP) recommendations,
Certificate of Immunization	official record of immunizations received, contains the official ADPH Seal
Chart number	number/identifier assigned to a patient by a healthcare organization, limited to 20 alphanumeric characters, the chart number is enterd by provider site and can only be edited by the site that entered it

CHD	County Health Department
City	limited to 40 alphanumeric field, each site has its own city for privacy, users can only view the city for their site
CoCASA	Comprehensive Clinic Assessment Software Application
Collection Date	uses standard date format, collection date cannot be a date prior to patient's DOB
Completely Vaccinated	Relating specifically to COVID 19, patient must be two weeks beyond the last required dose
Confidentiality	the treatment of information that an individual has disclosed in a relationship of trust and with the expectation that it will not be divulged to others in ways that are inconsistent with the understanding of the original disclosure
Connectivity report	an HL7 report that shows a healthcare organization has been granted/not granted credentials by ADPH and has submitted/not submitted the first
Contraindication	if selected, the antigens associated with that contraindication will not be recommended by the Recommend Button, the high Risk Report, or Reminder Postcards, on the Recommend Vaccine Screen, indicated there are contraindications listed on the Patient Vaccine History Screen that may influence the recommendation
County	drop list of all counties in Alabama
COVID-19 Doses Added Report	Report shows all COVID doses (all brands) administered by the site within a desired date range
COVID-19 Patient List	Report shows a list of all patients given a dose of COVID 19 vaccine within a desired date range
COVID-19 Second Dose Report	Report shows a list of patients who have receive the first dose of Pfizer or Moderna and are within five days of the second dose being due

Credentials	information that shows requirements have been met to proceed
Current Last Name	place to enter last name if it is different than the patient's birth certificate record, this will not supersede the birth last name unless legally changed
CVX	Vaccine Administered
Dashboard	Feature/screen seen immediately after logging into ImmPRINT. The dashboard displays the Widget that contains the registry, VFC Enrollment, Training Library, and the Support Ticket System.
Data Security	exists when information is protected from accidental or intentional disclosure to unauthorized persons and from unauthorized or accidental alteration
Data Source	indicated who originated the record
Date	the date the vaccine was administered, can be edited in certain screens, but cannot be a date prior to the infant's DOB nor the same date as the duplicate vaccine
Date Reported	date the titer test was read or serology results confirmed
Date Updated	date the patient record was updated or modified
Delete	permanently removes the vaccine from the history, clinics can only delete vaccines submitted by that site and any unclaimed vaccine, if a lot
Disease History	displays disease, disease date, contraindications of vaccine administration
DOB	acronym that stands for date of birth, 2 digit month, 2 digit day, and 4 digit year

Dosage	the amount of vaccine administered, four character maximum for the dosage e.g. 1.0 or 0.25, will default if already entered in ith the lot number
Dose	a predetermined or premeasured amount of vaccine/medication
DSA	Data Sharing Agreement
EHR	Electronic Health Record
Error Report	HL7 report that shows erroneous information submissions to ImmPrint
Ethnicity	drop list for option 1.) Hispanic or Latino or 2.) Not Hispanic or Latino
Father's DOB	follow format for DOB (patient's father)
Father's First Name	limited to 30 letters
Father's Last Name	limited to 30 letters
Father's Middle Name	limited to 30 letters
Father's Social Security Number (SSN)	Limited to 9 digits with no hyphens (may begin with 0)
FERPA	The Family Educational Rights and Privacy Act of 1974-§438 of the General Education Provisions Act (GEPA) called "Protection of the Rights and Privacy of Parents and Students" and codified at 20 U.S.C. §1232g. (www.ed.gov)
FHQC	Federal Health Qualified Center
First Name	Limited to 45 letters with no hyphens, apostrophes, or numbers
Gender	drop list selection of male or female
High Risk Status	if designated as high risk, patient remains in that status until completion of primary series of vaccinations or 19 years of age

HL7	acronym that stands for Health Language 7, the language in which information is sent to ImmPrint (one of several ways)
HL7 Report	any report or summation of information submitted to the database in HL7 format: Connectivity Report, Vaccine Report, Error Report, Ongoing Data Submission Report, and Ongoing Data Submission Report by NPI Number
Home Phone	include area code with no hyphens-10 numeric characters
IIS	Immunization Information System
ImmPrint	acronym that stands for Immunization Provider Resource with Integrated Technology, the web application used by the state of Alabama to serve as the confidential population based Immunization Registry
Inactive	the status of a user, clinic, or patient indicative of nonuse, or lack of activity, users automatically become inactive after sixty days of nonuse
Information Privacy	the claim of individuals, groups, or institutions to determine for themselves when, how, and to what extent information about them is communicated to others
Initials	the initials of the vaccinator
Inventory	a tabulation or count of products, lots, or doses currently in possession of the healthcare organization
IPOM	Immunization Program Operations Manual
IQIP (Immunization Quality Improvement for Providers	Program that helps providers identify quality improvement strategies to increase vaccine uptake by improving and enhancing vaccination workflow
J&J COVID 19	COVID-19 brand specific vaccine, 1 dose requirement
Last Reminder Sent	date the last reminder was sent, when a vaccine is added, the file will reset to blank

Lot number	identifier assigned to an individual lot, drop list of lot numbers associated with the clinic inventory, selecting a lot will update the manufacturer, Brand name, and Formulation Fields
Lot Recall Report	retrieves list of patients that received a vaccine in a specified time frame
Manufacturer	vaccine manufacturer is related to the lot number of the vaccine, drop list of manufacturer names, once the lot number is selected, the manufacturer name is updated
Mass Vaccinators	Provider should first attempt to verify patient is not NOT in ImmPRINT before using Mass Vaccinator. Relating specifically to COVID 19, this feature allows for the quick addition of a patient and COVID dose into ImmPRINT, for patients who are not yet in ImmPRINT.
Medicaid Number	patient's official Medicaid number, 12 numeric digits minimum
Medical Authority	designates the individual who is legally designated to administer a vaccine, usually a physician or nurse practitioner
Middle Name	Limited to 45 letters with no hyphens, apostrophes, or numbers
MIROW	Modeling of Immunizations Registry Operations Workshop
Moderna COVID 19	COVID-19 brand specific vaccine, 2 dose requirement with 28 day interval
MOGE	Moved or Gone Elsewhere
Mother's DOB	follow format for DOB (patient's mother)
Mother's First Name	limited to 30 letters
Mother's Last Name	limited to 30 letters
Mother's Middle Name	limited to 30 letters

Mother's Social Security Number (SSN)	Limited to 9 digits with no hyphens (may begin with 0)
MSH	Message by Header
NDC	acronym that stands for National Drug Code, unique ten digit three section number that serves as an identifier for prescription or OTC drugs
Not Up To Date Report	displays patients within a practice that are behind on vaccinations
Notes	section for provider to make general notes about the patient or vaccine
NPI number	acronym that stands for National Provider Identifier, a number identifying a particular healthcare provider or a healthcare organization/practice
Ongoing Data Submission Report	HL7 report that shows submission of HL7 messages concerning specified numbers of patients and vaccines in a specified time period
Ongoing Data Submission Report by NPI Number	HL7 report that shows submission of HL7 messages submitted by a particular NPI number
Overdue	age for vaccine
Patient	individual receiving healthcare services from a healthcare provider
Patient or Parent Card	a more user friendly immunization record with parent/patient information
Pending	the status of a user indicating a request for ImmPrint access has been made but not yet granted
Pfizer COVID 19	COVID-19 brand specific vaccine, 2 dose requirement with 21 day interval

Privacy	the legal right of an individual to limit access by others to some aspect of the person's protected health information (National Vaccine Advisory Committee, 1999)
Production Data	real data concerning real patients submitted to the registry
Profile	a database user's current information or status on ImmPrint
Purchased	radio button on the Clinic Inventory screen list call the funding sources: VFC, Private, State, County, 317
QBP	Query by Parameter
Race	drop-list with the federal classifications of race categories, multiple selections are allowed
Registry ID	Auto assigned by ImmPrint, unique identifier for each patient and cannot be modified
Reminder Sent (# of)	indicates the number of reminders sent since the last vaccine
Report	a summation of specified information
Result	indicates if the titer test was positive or negative
Return to Dashboard	This button allows the user to return to the dashboard from the registry.
Return to ImmPRINT	This button allows the user to return to the Patient Search page from the VOMS module.
RHC	Rural Health Center
Search	to actively seek information in the database
Site	a healthcare organization, a medical practice, facility where immunization services are performed, information can only be viewed by users in the clinic where the immunization is being administered, users will only see a drop list of clinics to which they are authorized to view

Site and Route	refers to the site of injection and the method of administration, drop list of site/method acronyms
Social Security Number	acronym that stands for Social Security Number, a nine digit number assigned by the federal government to all naturally born US citizens
Sort	to filter information by using specified search criteria
Special Project Vaccine Program	Federally funded program that provides free COVID vaccine to providers through the state Public Health Agency and thereby making the vaccine free to the public, this program requires a separate enrollment agreement
State	drop-list of all US states with default set to Alabama
Suffix	drop-list of common suffixes e.g. Jr, Sr, I, II, II, IV, V, VI, VII, VIII, IX, X
Test Type	drop-list of tests includes: Hepatitis Titer, Rubella Titer, Rubeola Titer, TB Test, Varicella Test
Update	saves changes and returns user to the previous screen
Update with Details	vaccine administered - allows the administering site to enter the details of the vaccination
Update without Details	vaccine administered when details are not available
User	any person who is authorized to access, use, modify, read or disclose any information contained in ImmPrint
Vaccinator	indicates who administered the vaccination, only vaccinators associated with the chosen clinic will appear in the drop-list
Vaccine for Children (VFC) Eligibility	indicates a patient's eligibility status for the VFC Program, drop list of standard eligibility categories, field appears on the patient information screen, not a required field

Vaccine Forcaster	evaluates recorded vaccines and recommends present and future vaccines based ACIP recommendations and CDSi standards
Vaccine Information Statement (VIS) #1	Vaccine Information Statement (VISs) are information sheets produced by the Centers for Disease Control and Prevention (CDC) that explain to vaccine recipients, their parents, or their legal representatives both benefits and risks of a vaccine. Federal law requires that VISs be handed out whenever (before each dose) certain vaccinations are given, documents that the VIS was given to the patient, Drop-list of VIS Statements
Vaccine Information Statement (VIS) #2	see VIS #1 above, VIS #2 is utilized when combination vaccines are given
Vaccine Report	HL7 report, vaccinations received via HL7 from a given site during specified date range
Vaccines for Children Program	The Vaccines for Children (VFC) Program was created to remove vaccine costs as barriers and in response to the private medical community's vital role in serving the immunizations needs of our youngest citizens. Children from birth through 18 years of age are eligible to receive free vaccine through this program include children who are: Medicaid enrolled, uninsured, American Indian, or Alaskan Native or Under-insured
VFG	Vendor Facility Guide
View Patient Detial Tabs	large tabs at the top of the view patient details screen that move user from screen to screen, allows user to move between patient detail screens by clicking on the appropriate tab
View Vaccine History	provides name and date of vaccines administered, can be edited by submitted site

VOMS (Vaccine Ordering Management System)	Module within ImmPRINT that allows the ordering of vaccine and documentation of transfers, wastage, and returns
VXU	Vaccine Update
Widget	Tools that provide the user access to different sections within ImmPRINT. The widgets within ImmPRINT are: the registry, VFC Enrollment, Training Library, and the Support Ticket System.
Work Phone	include area code with no hyphens-10 numeric characters
Zip Code	nine digit field with no hyphens
