Infection Control Assessment and Response (ICAR) Tool for General Infection Prevention and Control (IPC) Across Settings

Section 1: Facility Demographics and Infection Prevention and Control (IPC) Infrastructure Long-Term Care

General Facility Demographics and IPC Infrastructure						
Date of Assessment:						
Facility Name:						
State/Territory:	County:					
Zip Code: State/Territory-assigned Unique	e ID (if applicable):					
Facility type (Complete the demographic form that corresponds to the type of facility): Acute Care Hospital / Critical Access Hospital Long-term Care Outpatient/Ambulatory Care Other (specify):	NHSN Facility Organization ID (if applicable): CMS Facility ID (if applicable):					
Facility Respondent Name(s) and Job Title(s):						
Rationale for assessment: Requested by facility Requested by accrediting agency/ licensing organization Requested by state or local health department HAI prevention focused: CAUTI CLABSI SSI CDI Other (specify): Prevention collaborative (specify partners): Outbreak (specify): Other (specify):						
	cleaning and disinfection of environmental surfaces and ent/resident care equipment in the facility t/resident rooms:					
EPA registration number(s) for products used in comm	on areas:					
EPA registration number(s) for products used on non-c	ritical patient/resident care equipment (e.g., blood glucose meters):					

 Does the facility have access to onsite IPC expertise? Yes No Unknown Not Assessed 	
If YES, specify:	
Healthcare epidemiologist (number of full-time equivalents dedicated to IPC activities):	
Infection preventionist (number of full-time equivalents dedicated to IPC activities):	
Other (specify, including number of full-time equivalents dedicated to IPC activities):	
Note : This is intended to identify individuals who work onsite at the facility or provide IP oversight at satellite locations (e.g., hospital IP proversight to affiliated outpatient clinics) and what proportion of their time is dedicated to IPC activities. Example: The facility has two IPS 25% of their time on IPC activities and the rest of their time on direct patient care and IP #2 spends 75% of their time on IPC activities and time on direct patient care. This would be recorded as IP: 1 FTE dedicated to IPC activities. This breakdown could be further described in	s. IP #1 spends d the rest of the
2. Does the facility have access to offsite IPC expertise? Yes No Unknown Not Assessed	
If YES, specify:	
Healthcare epidemiologist (number of full-time equivalents dedicated to IPC activities at the facility):	
Infection preventionist (number of full-time equivalents dedicated to IPC activities at the facility):	
Other (specify, including number of full-time equivalents dedicated to IPC activities at the facility):	
Note: This is intended to identify individuals who do not work primarily onsite at the facility but might provide IPC support on a contract basis. If a full-time equivalent cannot be determined, the level of support should be described in the notes.	tual or part-time
3. Does the person(s) charged with directing the IPC program at the facility hold a nationally recognized credential in infect (e.g., a-IPC, CIC, LTC-CIP, BCIDP)? Yes No Unknown Not Assessed	ion control:
Lack of certification does not mean that an individual is not qualified to direct the IPC program. Describe thei (e.g., other certifications, specialized training):	r qualification(s)

+.	What additional duties are performed by personnel within the IPC program? (select all that apply) Occupational Health Education of personnel Safety officer Administrative (e.g., Director of Nursing) None Not assessed Other (specify):					
5.	What does the director of the IPC program believe are the current strengths and weaknesses in the IPC program?					
5.	Does the IPC program have access to electronic medical records of patients/residents? Yes No Unknown Not Assessed					
7.	Does the IPC program utilize data mining/reporting software? Yes No Unknown Not Assessed					
3.	Does the IPC program perform an annual facility infection risk assessment that evaluates and prioritizes potential risks for infections, contamination, and exposures and the program's preparedness to eliminate or mitigate such risks? Yes No Unknown Not Assessed					
9.	Are written infection control policies and procedures available, current, and based on evidence-based guidelines (e.g., CDC/HICPAC), regulations, or standards? Yes No Unknown Not Assessed					
	9a. How frequently are policies and procedures reviewed and updated? (select all that apply) Annually Every three years As needed when new guidelines or evidence is published (e.g., via subscription with a publisher) Unknown Not assessed Other (specify):					

Note: Facilities should have a schedule to regularly review policies and procedures to ensure they are current. At a minimum, updates should be made when new evidence-based guidance is published and if the scope of care delivered changes (e.g., new equipment is introduced or new procedures are performed).

10. Does the IFC program provide infection prevention education to patients, family members, and other caregivers:
Yes
No
Unknown
Not Assessed
MARC.
If YES:
10a. What topics are covered? (specify)
10b. How is this education provided (e.g., information included in the admission or discharge packet, videos, signage,
in-person training)? (specify)
11. Does the facility have an interdisciplinary infection control committee to address issues identified by the IPC program?
Yes
No
Unknown
Not Assessed
Not Assessed
Note: Issues identified by the IPC program often impact multiple areas of the facility. An interdisciplinary committee, including facility leadership
(e.g., ownership, chief medical officer, director of nursing), is needed to allocate resources and successfully implement long-term solutions.
(-19)
163/E6 16
If YES, specify:
11a. Who is part of the infection control committee? (select all that apply)
Chief Medical Officer
Director of Nursing
Environmental Services
Unknown
Not Assessed
Other (specify):
11b. How often does the infection control committee meet?
Monthly
Quarterly
Unknown
Not Assessed
Other (specify):
Notes

Facility Demographics: Long-Term Care **1.** Facility type (select all that apply): Nursing home Intermediate care facility Assisted living facility Inpatient Rehabilitation Facility Other (specify): _ 2. Certification: **Dual Medicare/Medicaid** Medicare only Medicaid only State only 3. Ownership: For profit Not for profit, including church Government (not VA) **Veterans Affairs** 4. Affiliation: Independent, free-standing Independent, continuing care retirement community Multi-facility organization (chain) Hospital system, attached Hospital system, free-standing **5.** Floor Plan/Layout: Number of Floors: _____ Number of Units or Wings: _____ **6.** Total Number of Licensed Beds: _____ Number of Pediatric Beds (age <21): _____ **7.** Current Census: Number of Number of Number Current Number Number **Unit Type** single/private doubles/ of Rooms Census of triples of quads rooms semi-privates Subacute/Skilled Long-term general nursing **Memory Care** Other (specify): 1. 2.

8. Does the facility have communal bathing areas?

Residents have dedicated, private bathing areas Communal areas are used for showering

9. Does the facility provide onsite hemodialysis for residents?

Yes

No

3.

9a. If yes, where is hemodialysis performed?

Resident's room

Shared location in the facility (e.g., den)

Other (specify):

,	Onsite Affiliated medical cer Medical center, contra	nter, within same health	system		
	Commercial referral la	•			
(Other (specify):				
11. Whice	ch services are provid	ed by contracted vendo	rs? (select all that apply)	
[[acted es/Housekeeping super es/Housekeeping frontli		Wound Care Podiatry Dental Other (specify):	
Ventila	ntor Unit				
	s the facility have ven o, skip remainder of tl	itilator-dependent reside his section)	ents or residents with	tracheostomies NOT	on a ventilator?
	Yes No				
12a.	Current census of re	sidents with tracheostor	nies NOT on ventilato	ors:	
12b.	Current census of ve	entilator-dependent resi	dents:		
	Do ventilator-deper	·	with tracheostomies		unal services/group activities
where t		ning, if indicated) and read			and procedures (e.g., how and environmental cleaning supplies)
If <u>NO:</u>	Is there a dedicated Yes No	ventilator unit? ventilator-dependent res	idents roomed? (spec	-ifu unitc)-	
	On which units are v	rentilator-dependent res	sidents roomed: (spec	illy utilits).	
If <u>YES</u> : 12f.	Are residents not on Yes No	ventilators (e.g., patient	s with a trach or othe	er device) ever roome	ed on the vent unit?
4.0					
12g.		f rooms in the vent unit	: 		
	Room type	Number per unit			
	Single rooms Double rooms				
	Triple rooms				
	Quad rooms				
			ı
