

# tele-behavioral health: clinical and evidence based interventions (part 3 of 3)

## Satellite Conference and Live Webcast

Wednesday, December 18, 2019, 2:00-3:00 p.m. (Central Time)

3:00-4:00 p.m. (Eastern) ■ 1:00-2:00 p.m. (Mountain) ■ 12:00-1:00 p.m. (Pacific)

*This program will provide information on different screening tools that are used when providing tele-behavioral health services to clients/patients with substance use disorders. Information will be provided on evidence based interventions that are used for individual, group and family psychotherapy services to clients/patients with behavioral health problems. Risk management considerations for addressing clinical emergencies with patients will also be discussed.*

### Program Objectives:

1. Review risk management considerations when using multiple mediums and modalities in the delivery of tele-behavioral health service.
2. Discuss assessment tools that can be used for substance abuse and mental health services.
3. Explain therapeutic interventions that can be used in the delivery of tele-behavioral health services.
4. List risk management considerations for patients who are experiencing crisis situations.
