

Medical Exemption

Objectives: At the completion of this section, the user will know the steps to:

- Issue a full medical exemption
- Issue a partial medical exemption

Clinic users at a facility with a licensed physician providing direct care to patients can provide a Certificate of Medical Exemption from school-required immunizations. The Certificate of Medical Exemption will be on forms approved by the Alabama Department of Public Health (ADPH) and will be accepted in lieu of or in addition to the Certificate of Immunization (COI).

To issue a medical exemption for all vaccines required by school law, a patient must be assigned to your site and have a chart #. A chart # can be added by clicking “View Patient Details”, “Chart #/Follow Up”, entering a chart number, and click 

Chart #	Site Name	Follow-Up
<input type="text"/>	TEST CLINIC	ACTIVE

Once the patient has a chart number assigned at your site, select Medical Exemption on the left side of the menu.

Medical Exemption

In the first column, the user must select a full or partial exemption. If a partial exemption is chosen, the user will need to select the indicated antigen. A full Medical Exemption from all school-required vaccines will result in the “Antigen” section defaulting to “All”. Then select the medical provider authorizing the exemption. The date in the last column automatically defaults to the present date. After all information is entered, select “Add”.

Medical Exemption

Name	DOB	Age	RegistryID
TEST, TESTY ANOTHER	04/09/2004	14 Yrs 1 Mo 8 days	(15194656)

Exemption Type	Antigen	Authorizer	Begin Date	End Date or Vaccine Given
<div> <div>Add</div> <div> --Select-- </div> <div> --Select-- </div> <div> Full Medical Exemption </div> <div> Partial Medical Exemption </div> </div>	--Select--	--Select--	5/17/2018	

Print

A Partial Medical Exemption can be issued when the exemption is for one or more but less than all school required vaccines. Only one antigen can be chosen at a time. Choose a specific “Antigen”, the “Authorizer”, and follow the abovementioned steps. To add more than one antigen you must complete the steps above for each antigen to be included.

Exemption Type: Partial Medical Exemption

Antigen: --Select--

Authorizer: --Select--

Print

Select “Print” to print the exemption, as an approved ADPH medical exemption form will be accepted in lieu of or in addition to a COI. An example is provided below. Notice the exemption has the approved ADPH seal, and there is no expiration date.

STATE OF ALABAMA PERMANENT MEDICAL EXEMPTION

This Alabama Certificate of Immunization is to be used when vaccines are contraindicated for medical reasons. This exemption must be authorized by a physician.

TESTY ANOTHER TEST

04/09/2004

Name of Child

Date of Birth

The administration of the following is/are medically contraindicated at this time.

Antigen
MMR

Authorizing Physician MEDICAL TEST

Site: TEST IMPRINT CLINIC

Phone Nbr: (334) 456-7890

Date Printed: 05/17/2018

There are two ways for an exemption to end. The first is when the patient receives an immunization containing the exempted antigen. When the administration of that vaccine is entered into ImmPRINT, the registry automatically applies that administration date as the end date.

Medical Exemption					
Name	DOB	Age	RegistryID		
TEST, TESTY ANOTHER	04/09/2004	14 Yrs 1 Mo 8 days	(15194656)		
Exemption Type	Antigen	Authorizer	Begin Date	End Date or Vaccine Given	
Partial Medical Exemption	MMR	MEDICAL TEST	05/17/2018	05/17/2018

Immunization Division, 201 Monroe St, Montgomery, AL 36104

1-800-469-4599 www.alabamapublichealth.gov/immunization/index.html 06-12-25

However, clinic users can also manually enter an end date, but note end dates cannot be predated. The date entered must be on or before the current date.

Medical Exemption					
Name	DOB	Age	RegistryID		
TEST, TESTY ANOTHER	04/09/2004	14 Yrs 1 Mo 8 days	(15194656)		
Update	Exemption Type	Antigen	Authorizer	Begin Date	End Date or Vaccine Given
	Partial Medical Exemption	MMR	MEDICAL TEST	05/17/2018	
Add	<--Select-->	<--Select-->	<--Select-->	5/17/2018	
Print					

The user will access the patient's medical exemption page, enter the correct date, and select "Update".

Medical Exemption					
Name	DOB	Age	RegistryID		
TEST, TESTY ANOTHER	04/09/2004	14 Yrs 1 Mo 8 days	(15194656)		
	Exemption Type	Antigen	Authorizer	Begin Date	End Date or Vaccine Given
	Partial Medical Exemption	MMR	MEDICAL TEST	05/17/2018	05/17/2018

When any and all exemptions have ended, the print function will be unavailable.

Medical Exemption

Please note that an exemption of any kind does not affect the Vaccine Forecaster's ACIP recommendations. For partial exemptions, the COI will still print if the child is up-to-date on all other school-required vaccines.

If you are not authorized to issue a Medical Exemption, the following message will appear:
