

2025 Marengo County Health Department

ALABAMA
PUBLIC
HEALTH

Provides caring, quality services that affect every person in Marengo County—not just those who walk through health department doors.

The Bureau of Clinical Laboratories provides quality laboratory results for the following programs: maternity, family planning, child health, STD, tuberculosis control, diabetes, HIV/AIDS, newborn screening and environmental services.

Alabama's Children's Health Insurance Program increases access to care for eligible, uninsured children ages birth through 18, and served 641 Marengo County children in September 2025.

WIC provides nutrition assessment, education, and nutritious foods at no cost to 518 limited-income pregnant, breastfeeding, and postpartum women, infants, and children up to age 5 at nutritional risk in Marengo County.

Licensed public health social workers provide case management/care coordination for newborn screening disorders, elevated lead levels, and other services.

Conducted 18 onsite sewage inspections and oversees treatment and disposal of septage and other permitted wastes.

Prevents the occurrence and spread of rabies within the human and animal population of Marengo County by investigating reports of 17 exposures to animal bites.

Provided confidential testing, treatment, counseling, partner referral, and epidemiologic investigations for most sexually transmitted diseases in 358 support nurse visits.

Confidential and professional family planning services were provided to Marengo County residents in 882 visits. A wide range of services is available regardless of income to prevent unintended pregnancies through education and contraceptive services.

Offers a tobacco Quitline free to Alabama residents. Free call, free coaching, and free nicotine patches (if medically eligible and in coaching) to help tobacco users quit. Call 1-800-QUIT NOW or go to Quitnowalabama.com

Provided breast and cervical cancer screening to 14 uninsured women age 40-64 in 2025.

Newborn screening detects genetic or metabolic conditions, thereby reducing morbidity, premature death, intellectual and other developmental disability through early detection and follow-up.

Responds to storms, floods, disease outbreaks, nuclear power plant accidents, and other emergencies. Employees provide training, coordination, and response to disasters and partner with local first responders for health, medical, and social services.

Well Woman offers services to promote healthy living, prevention, and early detection of disease to increase longevity and quality of life for women ages 15-55. These services include preconception/interconception health planning; cardiovascular disease risk factor screenings; health and lifestyle coaching, classes, and support groups.

Protects patients/residents of health care facilities from abuse and neglect. Works to ensure facilities comply with state and federal standards. Requires corrective action when surveys find facilities are noncompliant. Assures that emergency medical services meet or exceed established standards.

2025 Annual Report of the Marengo County Health Department

Provided 1,225 home care visits that include skilled nursing, physical therapy, medical social work, pediatric and personal care services through Medicare-certified home health agencies.

Issued 2,116 certified copies of vital records in Linden on a while-you-wait basis regardless of where in the state the event occurred.

Conducted 190 inspections of restaurants, schools, and other food service and lodging establishments including child care centers to ensure standards in environmental health are maintained.

Offered tuberculosis testing, medication, physician services, epidemiologic investigations, hospitalization, and laboratory services for those with known or suspected TB disease and their contacts.

Provided 206 immunizations including childhood and adult vaccines. Provided Alabama Certificates of Immunization required for school entry.

The Alabama Department of Public Health (ADPH) works closely with your community to protect the public's health through emergency preparedness activities, health care coalitions, training, and response.

The mission of the ADPH is to promote, protect, and improve the health of individuals and communities in Alabama, and has served Marengo County since 1924. Our purpose is to provide caring, high quality, and professional services for the improvement and protection of the public's health through disease prevention and the assurance of public health services to resident and transient populations of the state regardless of social circumstances or the ability to pay.

All services from the ADPH are provided to eligible persons without regard to race, color, creed, national origin, political beliefs, handicaps, or sex. Payment for services varies. No one will be denied services if unable to pay.
