ECONOMIC IMPACT STATEMENT
FOR APA RULE
(Section 4122-23(f))

Control No. 420 Department or Agency: Alabama Department of Public Health

Rule No.: 420-7-2, Appendix

Rule Title: Controlled Substances List, Appendix

_______ New ______ Amend _______ Repeal _______ Adopt by Reference

This rule has no economic impact.

_________ X ______ This rule has an economic impact, as explained below:

1. NEED/EXPECTED BENEFIT OF RULE:

   An addictive and dangerous substance will be unavailable for sale without being prescribed by a licensed practitioner for a medical reason.

2. COSTS/BENEFITS OF RULE AND WHY RULE IS THE MOST EFFECTIVE, EFFICIENT, AND FEASIBLE MEANS FOR ALLOCATING RESOURCES AND ACHIEVING THE STATED PURPOSE:

   A rule change is needed to remove this substance from sale without a prescription. A rule change is required to add tianeptine to the Alabama Controlled Substance List. There is no on-going cost for this rule once it is approved.

3. EFFECT OF THIS RULE ON COMPETITION:

   Substance will be unavailable for sale by all retailers in the state. Therefore, there is no unequal effect on competition within Alabama.

4. EFFECT OF THIS RULE ON COST-OF-LIVING AND DOING BUSINESS IN THE GEOGRAPHICAL AREA WHERE THE RULE IS TO BE IMPLEMENTED:

   This rule will have no effect on cost-of-living and no effect on the ability of convenience stores, online retailers, and others to have a business in a geographical area.
5. **EFFECT OF THIS RULE ON EMPLOYMENT IN THE GEOGRAPHICAL AREA WHERE THE RULE IS TO BE IMPLEMENTED:**

Removal of this substance from convenience stores, online retailers, and others will not have an impact on employment in a geographical area.

6. **SOURCE OF REVENUE TO BE USED FOR IMPLEMENTING AND ENFORCING THIS RULE:**

This rule will be enforced by state agencies currently enforcing violations pertaining to substances on the Alabama Controlled Substance List. Current revenue sources will be used by these agencies.

7. **THE SHORT-TERM/LONG-TERM ECONOMIC IMPACT OF THIS RULE ON AFFECTED PERSONS, INCLUDING ANALYSIS OF PERSONS WHO WILL BEAR THE COSTS AND THOSE WHO WILL BENEFIT FROM THE RULE:**

Financial burden of tianeptine addiction and its impact on families and public health will decrease over time. The Alabama Sydrome Surveillance Program reports that 45 emergency department admissions between January 2019, and May 11, 2020, were potentially associated with tianeptine use. By scheduling tianeptine, the healthcare costs associated with its use will also decrease over time.

While there may be short-term decrease in profit for businesses, manufacturing, and selling tianeptine, the long-term effect should be negligible and would be shared equally by such businesses throughout the state. The Alabama Department of Public Health received numerous calls requesting that sales of tianeptine be restricted due to its addictive nature and potential for misuse, and that it be placed on the Alabama Controlled Substance List as a Schedule II drug. The benefit to the public not having the opportunity to purchase the product will outweigh the costs associated with scheduling tianeptine.

8. **UNCERTAINTIES ASSOCIATED WITH THE ESTIMATED BENEFITS AND BURDENS OF THE RULE, INCLUDING ANALYSIS OF PERSONS WHO WILL BEAR THE COSTS AND THOSE WHO WILL BENEFIT FROM THE RULE:**

There may be potential costs for law enforcement related to enforcement of the rule. The financial burden of addiction should decrease over time and, therefore, outweigh the associated costs of enforcement.

9. **THE EFFECT OF THIS RULE ON THE ENVIRONMENT AND PUBLIC HEALTH:**

This rule will have no impact on the environment. Public health will be improved if this substance is available only when prescribed by a licensed practitioner for an approved medical condition.
10. **DETIMENTAL EFFECT ON THE ENVIROMENT AND PUBLIC HEALTH IF THE RULE IS NOT IMPLEMENTED:**

This rule will have no impact on the environment if not implemented but public health will be affected if the substance remains available to purchase without a prescription. Tianeptine is not approved by the Food and Drug Administration (FDA) for any medical use and taking high doses of it can lead to dependence and withdrawal symptoms. According to the Drug Enforcement Administration scheduling criteria, the definition of a Schedule II substance is one that has a high potential for abuse, which may lead to a severe psychological or physical dependence. Making tianeptine available by prescription when approved by FDA will ensure that those taking tianeptine will be monitored by a healthcare professional.
