

NURSE PRACTITIONER PHARMACOLOGY UPDATE 2011

Satellite Conference and Live Webcast

Friday, February 18, 2011, 9:00-11:00 a.m. (Central Time)

10:00 a.m.-12:00 p.m. (Eastern) 8:00-10:00 a.m. (Mountain) 7:00-9:00 a.m. (Pacific)

Medication and pregnancy- can you safely combine the two? In recent years, greater numbers of women are being prescribed medications to treat depression, anxiety, and other mental health disorders. Program faculty will provide information about the risks and benefits of a variety of these medications for women of childbearing age. Recommendations on the medications that should be avoided during pregnancy will also be discussed.

FACULTY:

Cherry W. Jackson, BS, PharmD, BCPP, FASHP
Professor of Pharmacy
Auburn University
Professor of Medicine
University of Alabama at Birmingham

PROGRAM OBJECTIVES:

1. Discuss the risks and benefits associated with the use of psychotropic medications during the childbearing years.
2. Describe the common fetal malformation types that can occur with antipsychotics, antidepressants, anxiolytics, and traditional mood stabilizers.
3. Identify medications that should be avoided during pregnancy.
