

Pharmacology Update: Interactions of Oral Contraceptives and Seizure Medications to Drugs and Herbal Remedies

Satellite Conference and Live Webcast

Wednesday, March 4, 2015, 8:30-10:30 a.m. (Central Time)

9:30-11:30 a.m. (Eastern) ■ 7:30-9:30 a.m. (Mountain) ■ 6:30-8:30 a.m. (Pacific)

Drug-drug and drug-herbal interactions have the potential to decrease the effectiveness of a medication, increase the action of a medication or cause adverse effects. All of these could result in harm to the patient. Program faculty will provide information that will help the participant identify potential drug-drug and drug-herbal interactions of the most commonly prescribed oral contraceptives and seizure medications.

Program Objectives:

1. Describe the classifications of oral contraceptives.
2. Describe medications and herbals that have the greatest potential to interact with oral contraceptives.
3. Describe the rationale behind the major drug-drug interactions of oral contraceptives.
4. Describe the classifications of seizure medications.
5. Describe medications and herbals that have the greatest potential to interact with seizure medications.
6. Describe the rationale behind the major drug-drug interactions of seizure medications.
