

Developing and Following Your Plan of Care

Satellite Conference and Live Webcast

Wednesday, April 22, 2009 2:00-4:00 p.m. (Central Time)

3:00-5:00 p.m. (Eastern) • 1:00-3:00 p.m. (Mountain) • 12:00-2:00 p.m. (Pacific)

Developing a correct Plan of Care begins with a good assessment. The “show me, don’t tell me method” of assessing your patient will capture the care your patient needs. Developing an accurate Plan of Care will assure all patient needs. Following the Plan of Care provides all care the physician ordered. Our goal today is to provide guidance so you will be able to understand the key elements of a Care Plan and complete it correctly.

Faculty

Becky Leavins, RN

Nurse Consultant
Bureau of Home and Community Services
Alabama Department of Public Health

Shirley Offutt, BSN, RN

Nurse Consultant
Bureau of Home and Community Services
Alabama Department of Public Health

Program Objectives

1. Identify criteria for admission to home care services.
2. Know the components in the Plan of Care (POC).
3. Understand listing and changing medications and supplies.
4. List the four appropriate Functional Limitations and Activities Permitted.
5. Recognize and implement appropriate goals, rehabilitation potential and discharge plans.
