

PUBLIC HEALTH RESPONSES TO INFECTIOUS DISEASES

Satellite Conference and Live Webcast
Wednesday, July 26, 2017 2:00-3:30 p.m. (Central Time)
3:00-4:30 p.m. (Eastern) • 1:00-2:30 p.m. (Mountain) • 12:00-1:30 p.m. (Pacific)

During the Alabama summer, citizens seek to enjoy food and fun in the great outdoors, but infectious diseases are present and can cause serious health crisis. This program will explore infectious diseases commonly encountered by public health officials in the promotion of health. Food borne, vector borne, and vaccine preventable disease cases will be discussed as well as their management.

FACULTY

Phyllis Mardis, BS

Community Environmental Protection

Ronald Dawsey, MPH

Environmental Services

PROGRAM OBJECTIVES

1. Identify vector borne infectious diseases that are commonly seen during summer months.
2. Discuss public health pest management.
3. List common food borne illnesses.
4. Describe the management of food borne disease outbreaks.
5. Describe how recommended vaccinations prevent disease.
6. Discuss recent vaccine preventable disease outbreaks.
7. Restate the OSHA Standard Precautions for Outpatient Ambulatory Facilities.
