

CARING FOR PATIENTS WITH CANCER IN HOME CARE

Satellite Conference and Live Webcast

Friday, September 28, 2012, 10:00 a.m.-12:00 p.m. (Central Time)

11:00 a.m.-1:00 p.m. (Eastern) ■ 9:00-11:00 a.m. (Mountain) ■ 8:00-10:00 a.m. (Pacific)

In 2012 alone, more than 1.6 million new cancer cases are expected to be diagnosed. As treatments advance, the National Cancer Institute says patients often feel more comfortable and secure being cared for at home. Many cancer patients want to stay at home so they will not be separated from family, friends, and familiar surroundings. Program faculty will discuss how your role in home care can help a patient achieve this desire.

FACULTY:

Emily K. Pauli, BS, BMS, RPh, PharmD

Director of Research

Clearview Cancer Institute

Huntsville, Alabama

CEO

Peritus BioMedical Solutions

Huntsville, Alabama

Vice Chair

Alabama Comprehensive Cancer Control Coalition

Alabama Department of Public Health

PROGRAM OBJECTIVES:

1. List different types of cancer.
2. Identify treatments for cancer.
3. Understand how to care for patients with cancer.
4. Identify resources available for cancer patients and their families.
