Test your computer with the "test connection link" at www.adph.org/alphtn

Audio - To listen by phone, call 1-888-557-8511. Enter access code 972-1530 #.

Press # again to listen to the conference.

On Demand - Available 2-3 business days after the live broadcast from the On Demand page of our website.

Conference Materials: Posted on our website approximately one week before the program for registered participants.

Conference Details Questions: Call: 334-206-5618 | Email: alphtn@adph.state.al.us

With so many birth control methods available and so many factors to consider, helping clients select a birth control method can be difficult. If they have certain health problems or other risk factors, some methods of birth control may not be the safest option for them. Knowing birth control side effects ahead of time can help you aid them in their decision-making. Program faculty will update Alabama Department of Public Health nurse practitioners and nurses regarding contraception for women with increased medical risk factors and how this affects their contraceptive management.

The content of this program is based on the policies and procedures of the Alabama Department of Public Health, Alabama and federal statutes, rules, regulations, and guidelines. Viewers not employed by the ADPH should always check to clarify whether the content is accurate according to the statutes, regulations, and policies of their jurisdiction and agency.

****The Alabama Department of Public Health is an approved provider of continuing nursing education by the Alabama State Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation****
