

Assessment and Management of Women with Benign Breast Conditions, Abnormal Uterine Bleeding and STI's

Satellite Conference and Live Webcast
Thursday, November 19, 2015
9:00 – 11:00 am Central Time

Faculty:

Beth Allen, MSN, CRN
Senior Nurse Practitioner

Deborah Davis, MSN, CRNP
Senior Nurse Practitioner

Neysa Hernandez, MSN, CRNP
Senior Nurse Practitioner

Bureau of Family Health Services
Alabama Department of Public Health

Objectives:

1. Discuss and define benign breast disease with emphasis on pathophysiology and clinical management
2. Outline clinical management and follow-up utilizing case study application of benign breast disease
3. Define the descriptive terms used to characterize abnormal menstrual bleeding patterns
4. Demonstrate utilization of differential diagnosis in development of a plan of care in a woman with abnormal uterine bleeding
5. Identify treatment recommendations for the management of sexual health and clinical issues according to the 2015 CDC guidelines
