

ADEM/ADPH Environment Affects Everyone 30 Sec PSA

The environment affects everyone. So, everyone should help keep Alabama's environment clean to protect the health and safety of all of us. It's important not to litter and to pick up garbage when you see it.

It's important to us all.

Safeguarding the environment not only protects Alabama's air, land, and water... but it also protects the health and wellness of all Alabamians.

So, do your part...please don't litter.

This message is brought to you through a partnership of the Alabama Department of Public Health and the Alabama Department of Environmental Management.
