

Children's Eye Health & Safety Month 30 Sec PSA

Help your child be successful this school year and schedule their annual comprehensive eye exam. Know the warning signs for vision loss and encourage them to practice eye safety.

Eye injuries are the leading cause of vision loss in children. Help prevent your child from being one of 12 million children with vision impairment. Make sure they are wearing protective eyewear while playing sports, purchase age appropriate toys, and avoid toys with sharp or protruding objects.

This is brought to you by the Alabama Department of Public Health and this station.
