

National Latinx AIDS Awareness Day 30 Sec PSA

According to CDC, in 2018, adult and adolescent Hispanics and Latinos made up 27% of the nearly 40,000 new HIV diagnoses. National Latinx AIDS Awareness Day is observed each year on October 15th to decrease the impact of HIV on the Hispanic and Latino population, and to promote HIV prevention, testing, and information on access to care for Hispanic/Latino communities in the United States.
