

STD/HIV Home Specimen Collection Kit 30 Sec PSA

The Alabama Department of Public Health is now offering free STD/HIV home specimen collection and laboratory testing kits to all Alabamians ages 12 and older.

These kits allow people to determine their sexually transmitted infection and HIV status in their own home or other private location. This availability will hopefully help increase awareness of STD/HIV infection for people who would not otherwise get tested and to reach persons most affected.

For more information, visit our website at Alabama-Public-Health-dot-gov.
