

High-Consequence Infectious Disease Screening

Emergency Department screening criteria for patient isolation/testing are likely to be:

1. International travel to or contact with someone who is ill and traveled to a country that is currently experiencing or is at risk for a high consequence infectious disease outbreak of urgent public health concern per <https://wwwnc.cdc.gov/travel/notices>; or healthcare worker with a recent exposure to a potential high consequence infectious disease of urgent public health concern; or anyone who reports being part of a cluster of two or more persons with a similar febrile, respiratory illness.

AND

2. Experience one or more of these symptoms: fever, headache, cough, trouble breathing, diarrhea, rash, joint aches, and vomiting.

If both criteria are met, then the patient should be moved to a private room with a bathroom or Airborne Isolation Infection Room (AIIR) and STANDARD, CONTACT, and DROPLET precautions followed during further assessment.

IMMEDIATELY Report Person Under Investigation:

1. Hospital Leadership: Name: _____ Email: _____ Phone: _____
2. Complete the [High-Consequence Infectious Disease Consultation Form](#)
3. Notify Alabama Department of Public Health Infectious Diseases & Outbreaks Division:
1-800-338-8374 to report a presumed high consequence infectious disease.
4. Compile a list of all healthcare workers, patients, and visitors that may have come in contact with the patient at the facility, along with their personal contacts.
