

STATE OF ALABAMA DEPARTMENT OF
PUBLIC HEALTH

Donald E. Williamson, MD
State Health Officer

October 6, 2014

Dear Hospital Administrator and Medical Director:

Subject: Ebola Virus Disease (EVD) Hospital Toolkit

The Alabama Department of Public Health (ADPH) is partnering with the Alabama Hospital Association and other stakeholders to prepare to respond to Ebola Virus Disease (EVD). The goal is for an Ebola patient to be identified, isolated, and treated as quickly as possible. To assist Alabama's healthcare providers in this regard, ADPH has created an Ebola Hospital Toolkit.

The Toolkit includes the following resources:

1. Detailed Hospital Checklist for Ebola Preparedness
2. Hospital Planning Template
3. ADPH Quick Guidance
4. Checklist for Patients Being Evaluated for EVD in U.S.
5. ADPH EVD Screening
6. EVD Consultation Record
7. Self Monitoring Chart
8. Attention International Travel Poster
9. EVD Algorithm for Evaluation of the Returned Traveler
10. Sequence for Personal Preparedness Equipment (PPE) Posters

If you have questions about Ebola, please contact the Epidemiology Division at 1-800-338-8374 or www.adph.org/ebola. This emerging event is changing rapidly so please refer to ADPH's Ebola Website often. Thank you for preparing to ensure the best healthcare is provided to all Alabamians.

Sincerely,

A handwritten signature in blue ink, appearing to read "Donald E. Williamson".

Donald E. Williamson, M.D.
State Health Officer
