

Is Your Home Poison Safe?

To-do List

- Save the Poison Help number in your phone as a contact, and post it in your home for babysitters and visitors. 1-800-222-1222
- Put all of the medicine in your home up, away, and out of sight. Safely dispose of expired or unneeded medications.
- Install and check carbon monoxide detectors in your home.
- Be aware of where the button batteries are in your home. Places can include remote controls, key fobs, and watches. Keep away from children!
- Make sure all cleaning products, including laundry products, are stored in their original containers. Store these containers up high and out of reach of children.
