

# RMEDE Remote Patient Monitoring Program

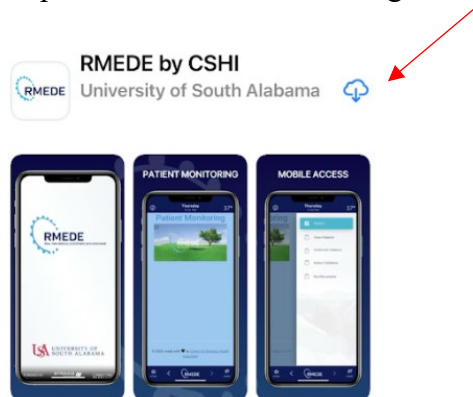

## *How to Use the App Reporting System*

Getting Started with your RMEDE RPM app for either iPhone or Android cell phone users. You will need to first download the RMEDE app from your app store. iPhone is the App Store and Android is Google Play

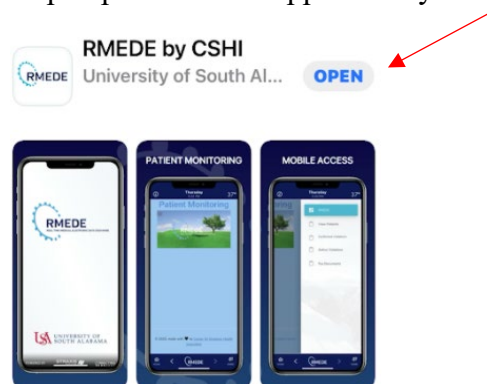

1. Go to your app store and in the search field type RMEDE by CSHI (this is not case sensitive)

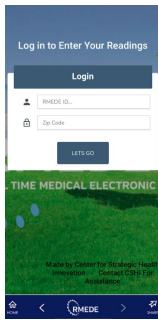

2. Tap the “cloud” and it will begin to download

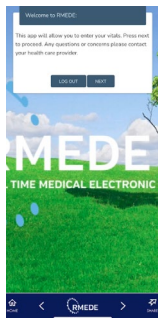

3. Tap “open” when it appears on your screen

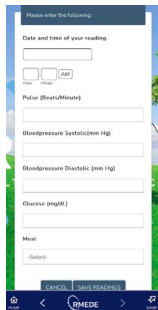

4. You will then be able to log in to enter your readings. Your log in is going to be your RMEDE ID in the first box and your zip code in the second box. Then press “Lets Go

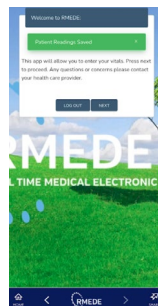

5. Next screen you will see is the Welcome to RMEDE: you will tap “Next”

6. Here is where you will enter the date, time, and your readings that you have written on your worksheet. Once all readings have been entered you will tap “Save Readings”.

7. This will take you back to the main screen and you will see a green bar at the top showing that your readings have been saved.

8. After completing the download there will be an icon added to your phone that looks like this

When you go to enter your next set of readings you will click this icon on your screen and log in. You will enter your readings the same way each time from here.
