Mean	19%		21%		20%	
Range	7% (Clarke)	- 44% (Bullock)	8% (Clarke)	- 40% (Bullock)	7% (Clarke)	- 41% (Bullock)

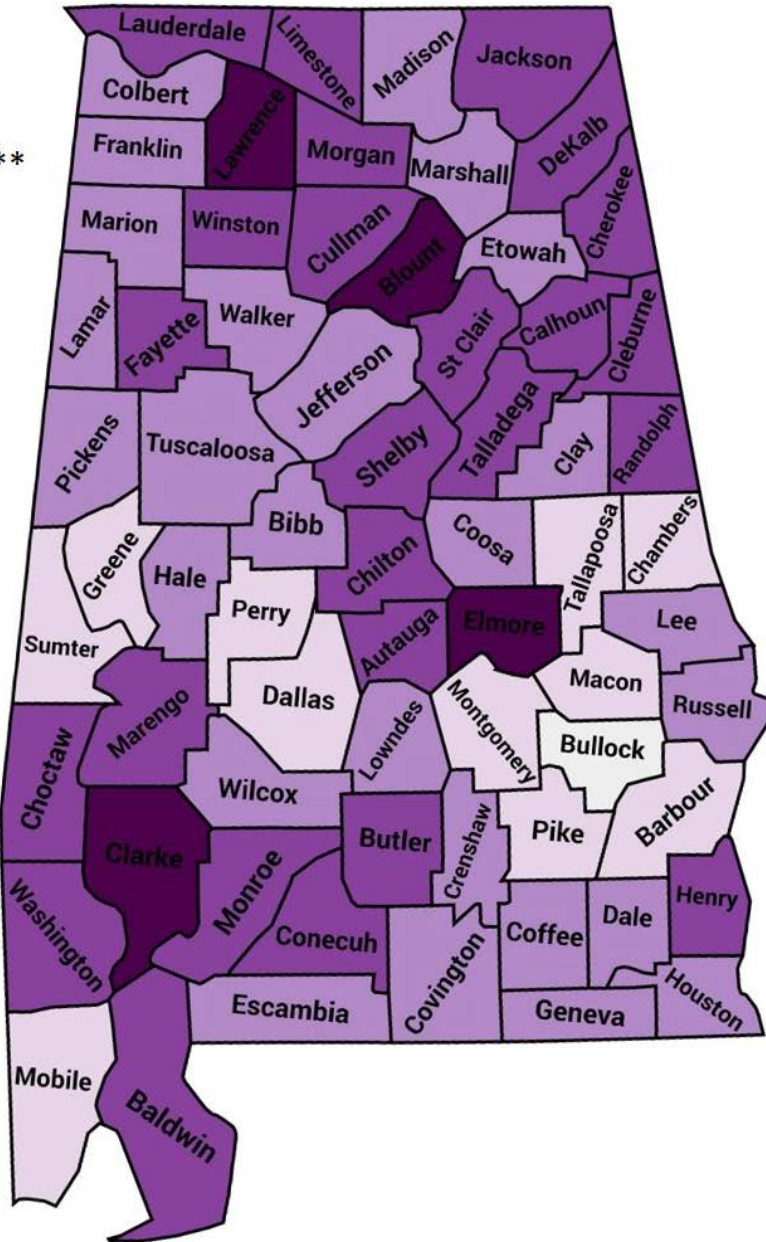

Alabama Adolescent Vaccination Rates (Ages 11 to 15),
February 2019

*All data provided by the Immunization Division of the Alabama Department of Public Health from the Immunization Patient Resources with Integrated Technology (ImmPRINT) Registry

Alabama Adolescent Vaccination Task Force
 Data Work Group
 State HPV Vaccination Overview: Spring 2019*

Percentage of Missed HPV Vaccination Opportunity by County*, 11-15 (2019)

*Percentage calculated for each county by subtracting HPV vaccination uptake rate from Tdap vaccination rate

**No counties fell within the 0.0-9.9% range

*All data provided by the Immunization Division of the Alabama Department of Public Health from the Immunization Patient Resources with Integrated Technology (ImmPRINT) Registry
