Hepatitis A Symptoms:

Prevent the Spread of Hepatitis A:

YELLOWING OF
SKIN AND EYES
(JAUNDICE)

FEVER

NAUSEA, VOMITING,
DIARRHEA

Symptoms may also include: dark pee, pale poop, diarrhea, stomach pain, tiredness, lack of appetite. If you have Hepatitis A, you can infect others before you begin experiencing symptoms.

Wash your hands with soap and water after using the bathroom, after sexual activity, and before eating and preparing food.

Get vaccinated if you are at high risk for getting Hepatitis A!
