

- Deadly colorless and odorless gas
- CO exposure causes headaches, disorientation, nausea, fatigue and death
- Individuals most susceptible to the effects of CO
  - Those with respiratory issues and undeveloped systems
  - Infants and people with heart disease

### TIPS

- Make sure fuel-burning equipment is vented to the outside, that the venting is kept clear and unobstructed
- Be sure to turn all sources of gas completely off
- Consider purchasing a carbon monoxide detector
- Inspect all heating equipment annually, and clean as necessary
- Have gas stoves, furnaces, heaters etc, properly adjusted to prevent over exposure to carbon monoxide
- Never use a gas range or oven for heating
- Never use a charcoal grill or a barbecue grill indoors
- Never use a generator inside your home, basement, or garage or near a window, door, or vent
- Never idle the car inside the closed garage
