

CRS is part of the Alabama Department of Rehabilitation Services (ADRS). There are multiple sites across the state offering the preferred follow-up screening method of AABR. Parents may choose the site that is most convenient for them. Please see the list below to obtain an appointment for the CRS Newborn Hearing Assessment Clinic. This clinic is for newborns who fail the initial hearing screen. For other hearing providers in Alabama that offer this method of hearing screening or OAE hearing screening, please see our website at www.alabamapublichealth.gov/newbornscreening.
