

MOBILE APPS IN PEDIATRIC HEARING AID CARE:

Audiologists' views on parent-focused app support

To participate:

- You must be providing clinical hearing aid fitting services to children under 10 in the United States
- Use the QR code or link below to complete a 10-minute survey
- Participants who complete the survey may enter to win a \$50 Amazon gift card

Survey results will be used in a research study examining how hearing aid apps can be used to teach parents and encourage engagement in daily management tasks.
