

Alzheimer's and Brain Disease Awareness Month 30 Sec PSA

June is Alzheimer's and Brain Disease Awareness Month, and I encourage you to join me in supporting the millions of individuals worldwide who are living with Alzheimer's disease and other dementias.

The number of Americans living with Alzheimer's is growing at an alarming rate. Ten percent of people over the age of 65 have the disease and two thirds of them are women. Someone in the United States develops Alzheimer's every minute.
