

STATE OF ALABAMA DEPARTMENT OF
PUBLIC HEALTH

COLON CANCER (30 SECONDS)

This is State Health Officer, Doctor Scott Harris. Colon cancer is the second leading cause of cancer deaths in Alabama – but it doesn't have to be.

The disease starts with no symptoms, but with early screening it can be treated and even cured. If you are 50 years of age or older, talk to your doctor about colon cancer screening.

For more information and resources, visit our website at Alabama Public Health dot g-o-v.
