

Daniels COVID Vaccine 60 Sec PSA

I'm House Minority Leader Anthony Daniels. I get it. You're not sure about the vaccine. And you're probably thinking "Maybe I don't need it. Maybe I'll just wait and see." I said the same thing.

Then, I spent Christmas fighting for my life – praying I'd live to see my wife and kids again. Months later, I still don't feel 100 percent.

Take it from me: don't roll the dice. Coronavirus is deadly. It almost took my life. And now, we have a weapon to stop it.

The available vaccines are safe, and they work. Get the shot. It won't give you the virus. The vaccines don't contain the live virus. The vaccines are extremely effective in preventing severe disease and death.

And studies show it may even help stop the spread. Get the shot. Defeat the coronavirus. Do it for your family, for your friends, and for yourself.
