

STATE OF ALABAMA DEPARTMENT OF  
**PUBLIC HEALTH**

**DISTRACTED DRIVING 30-SEC**

Did you know that distracted driving is one of the three primary contributing factors to teen driver deaths, along with the use of alcohol and not wearing a seatbelt?

This is State Health Officer, Doctor Scott Harris. If you have a teen driver, talk to them about the dangers of not paying attention when they are behind the wheel.

Get tips and tools for teenage drivers, instructors and parents on our website at [alabama-public-health-dot-gov-slash-teendriving](http://alabama-public-health-dot-gov-slash-teendriving).
