

Domestic Violence Awareness Month 30 Sec PSA

Love comes in a number of forms, but none of them are supposed to hurt. October is Domestic Violence Awareness Month. Did you know that more than 10 million people are physically abused by an intimate partner each year?

And, while it affects men *and* women, domestic violence – specifically intimate partner violence – is considered the leading cause of injury to women.

This month, join me in taking a stand against domestic violence.

For more information related to domestic violence, visit our website at Alabama-Public-Health-dot-gov.
