

Harris Vaccination 60 Sec PSA

Are you fully vaccinated? This is State Health Officer Doctor Scott Harris. According to the CDC, fully vaccinated individuals can resume activities done prior to the pandemic without wearing a mask or physically distancing, except where required by law, rules, regulations, or official guidance.

That said, the Alabama Department of Public Health and our partners are working to ensure that any eligible Alabamian interested in being vaccinated has an opportunity to do so as soon as possible. Vaccine doses are available at no cost to individuals and are offered at a number of accessible locations like doctors' offices, hospitals, local pharmacies, county health departments, and other approved sites and locations.

This summer, I'm urging everyone to get vaccinated to safeguard yourself and your loved ones.

To schedule your vaccine, or to find a vaccination location near you, visit a-l-covid-vaccine-dot-gov.
