

## **National Asian and Pacific Islander HIV/AIDS Awareness Day 30 Sec PSA**

May 19th is National Asian and Pacific Islander HIV/AIDS Awareness Day. According to the CDC, 66.5% of Asian Americans and 43.1% of Native Hawaiian and Other Pacific Islanders have never been tested for HIV. National Asian and Pacific Islander HIV/AIDS Awareness Day is an important day to educate the public about the impact of HIV stigma among Asian and Pacific Islander communities and provide access to testing and PrEP for these communities.
