

Organ Donation 60 Sec PSA

According to Legacy of Hope, the state's organ and tissue donation alliance, there are more than 115,000 people waiting for an organ transplant nationally, with a new person added to the waiting list every 10 minutes. Unfortunately, many may never get the call saying that a suitable organ donor – and a second chance at life – has been found.

If you've ever considered organ donation, now is a perfect time to become a donor. It is a generous and worthwhile decision that can be a lifesaver. One organ and tissue donation can save or enhance the lives of nearly 100 people.

Transplantation not only benefits the individual recipient, but also their friends, family and people they influence. In Alabama, we have more than 2,000 people that are waiting for a transplant.

For more information about how you can become a donor, or to sign up online, visit Legacy of Hope's website at Legacy-of-Hope-dot-org. Again, that website is Legacy-of-Hope-dot-org.
